

SCIENCE & MEDICINE

GENERAL HOSPITAL WORK EXPERIENCE

Many hospitals do accept requests for work experience, however they do not advertise formal programmes. If you would like work experience in a hospital then contact your local hospital or GP enquiring about work placements. You may need to be over 16 to gain a place due to health and safety reasons. However hospitals do accept students under the age of 16 in the medical records, administration areas

Find NHS Trusts in your area: www.nhs.uk/service-search

For more information about work experience opportunities please e-mail your enquiry to:
