

My Learning, My Future

Where can studying Chemistry
take you?

Highlighting the relevance of Chemistry
to future careers and opportunities

Why Chemistry matters

Have you ever considered where studying Chemistry can take you?

Today, we'll be exploring some of the career opportunities that are available to you, as well as the various pathways you can take to get there.

What careers can you think of that use Chemistry?

What do you think these roles involve (daily task, etc.)?

What skills do you think you might need for these roles?

Critical Care Staff Nurse
Research and Development Manager
Chemist
Pharmacologist
Biochemist

National Careers Service

We provide information, advice and guidance to help you make decisions on learning, training and work.

This service is available to people who live in England.

Skills assessment	Explore careers	Find a course
Learn more about your skills and match them to potential new careers.	Choose from over 800 career profiles to discover what each job involves.	Look for online learning opportunities and training courses local to you.
Assess your skills	Search job profiles	Look for courses

Careers advice

Making career choices	Getting a job	Progressing your career
Whether starting your career, changing job or if you have been affected by COVID-19, understand and make the right choice for you.	Be successful in the recruitment process with tips on great CVs, interviews and graduate scheme applications.	Move up in your career by developing new skills. Find opportunities like volunteering and online learning.

About us	Speak to a careers adviser	Follow us
The National Careers Service can help you with your career, learning and training choices. Find out more about the different ways we can support you.	Wherever you are in your decision-making, you can call us on 0800 100 900 or use webchat .	Twitter Facebook LinkedIn YouTube

Where can Chemistry take you

Pathways at 16

Example Post 16 Routes

- A-Level Chemistry
- BTEC Applied Science
- T-Level Health
- T-Level Healthcare
- T-Level Science

Apprenticeship Ideas

- Science Technician
- Weapons Science Machinist
- Data Science Degree
- Healthcare Science
- Nursing

SCIENCE
WE'VE GOT THE APPRENTICESHIP FOR YOU!

NUCLEAR SCIENTISTS AND ENGINEERS
observe, record and draw conclusions from data to provide suitable solutions to nuclear applications.

LABORATORY SCIENTISTS
carry out laboratory based experiments in their specialist field in order to find new solutions to problems.

FOOD INDUSTRY TECHNICAL PROFESSIONALS
ensure the smooth transition of food and drink products from farm to fork. They also ensure the safety and quality of food and drink products.

HEALTHCARE SCIENCE PRACTITIONERS
work in hospitals and other healthcare settings, carrying out routine procedures.

NURSES
give care, advice and support to sick, injured or disabled people.

MORE INFO

There are many other apprenticeships you might be interested in:
Food Scientist, Meteorologist, Forensic Scientist, Pharmacologist, Geospatial mapping Specialist, Acoustics Technician, Non-Destructive Testing Engineer and many more!

Brought to you by
National
Apprenticeship
Service

The background features a light blue-grey color with a pattern of faint, stylized hexagonal molecular structures. Overlaid on this are several pieces of laboratory glassware, including test tubes and Erlenmeyer flasks, drawn with red outlines. Some of these vessels contain red or dark blue liquids, and small dots of the same colors are scattered around them, suggesting a chemical reaction or experiment.
