Dear Parents/Carers

German School Partnership Visit

In the German department we have been delighted to work with a partner school over the past 2 years. This has given our students the opportunity to exchange letters with students in our partner school and find out a little about their lives as well as practising their German language writing skills.

Our partner school in Germany is planning a visit in September to our area for a week. They are using a company to support them in finding, and completing appropriate checks on, host families able to accommodate students during foreign exchanges. If this is something that you would like to be involved in or would like information about please get in touch directly with Warm Welcome on the following email address: hello@warm-welcome.co.uk.

Kind regards

M.Chohan
(Acting Head of MFL)
